January 9, 2021

To whom it may concern,

10th Anniversary of HKIoE

This is to celebrate the 10th Anniversary of The Hong Kong Institute of Environmentalists (HKIoE). HKIoE was founded by Dr. Tommy Ho as a non-profit organization as well as an environmental and professional body. I have been witnessing the development of HKIoE since its establishment.

The entirety of the founder's commitments makes HKIoE effective. His innovative vision for HKIoE has made this body an extraordinary learning society of "Environmentalists". HKIoE has become a motivation for other people. Environmentalists' commitment to sustainable development is the model. HKIoE's efforts have contributed to our sustainability over the years.

As a call for celebration, I extend my good wishes to HKIoE and its members. Happy 10th Anniversary!

Dr. Gryphon Sou
Provost of HiESD /
Associate Vice President of UNESCO HKA
